

First Line is an established world-wide supplier of quality automotive components to the vehicle aftermarket.

With 25 years experience in the market, First Line's product portfolio includes an extensive range of Chassis, Engine and Braking components, all of which undergo continuous research and development.

Situated on a 3 acre site in the heart of Great Britain, we are ideally located to ensure excellent service levels, supported by 7,700 square metres (85,000 square feet) of stock, state of the art technology and a qualified, dedicated workforce. First Line is accredited with ISO 9001:2000.

Today the First Line brand is viewed as a premium aftermarket brand because of its 25 years pedigree in continuously delivering consistent OEM matching quality, excellent service, industry leading catalogues, new-to-range developments and the highest levels of availability with a flexible approach to business.

First Line has embraced the World Wide Web with the launch of a brand new on-line catalogue facility - WEBCAT

For fast up-to-the-minute information and updates access WEBCAT via www.firstline.co.uk.
